In view of applicants' response filed 4/29/09 and petition filed on 12/23/09 the following applies.

In view of the petition decision mailed on 1/29/10, the request to change inventorship under 37 CFR 1.48(a) has been granted. Accordingly Valeri V. Martichonok of San Francisco, Ca will be added as an applicant in the BIB data sheet.

The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.

Claims 18,20,21,24-26,30,31,33-35,37-47 and 53 are rejected under 35 U.S.C. 103(a) as being unpatentable over Pennell (WO'853). While all of the claims have been amended to recite certain requirements on the phenyl and pyrazole rings, the species in Pennell previously anticipated are obvious variants in view of the express teachings in Pennell to replace groups exemplified in the species of Pennell with those instantly embraced which are included within the preferred embodiments described on pages 22-23 as discussed in the previous action. While evidence of common ownership may now be enough to disqualify commonly assigned art under 103 based on 102(e) as well as 102(f) or (g) in view of the passage of the American Inventors Protection Act, there must be provided a clear statement by applicants, attorney or agent of record that instant application and WO publication **at the time the instant invention was made were commonly owned**. See MPEP 2146 . No such statement has been made in applicants' response.

The nonstatutory double patenting rejection is based on a judicially created doctrine grounded in public policy (a policy reflected in the statute) so as to prevent the

unjustified or improper timewise extension of the "right to exclude" granted by a patent and to prevent possible harassment by multiple assignees. A nonstatutory obviousness-type double patenting rejection is appropriate where the conflicting claims are not identical, but at least one examined application claim is not patentably distinct from the reference claim(s) because the examined application claim is either anticipated by, or would have been obvious over, the reference claim(s). See, e.g., *In re Berg*, 140 F.3d 1428, 46 USPQ2d 1226 (Fed. Cir. 1998); *In re Goodman*, 11 F.3d 1046, 29 USPQ2d 2010 (Fed. Cir. 1993); *In re Longi*, 759 F.2d 887, 225 USPQ 645 (Fed. Cir. 1985); *In re Van Ornum*, 686 F.2d 937, 214 USPQ 761 (CCPA 1982); *In re Vogel*, 422 F.2d 438, 164 USPQ 619 (CCPA 1970); and *In re Thorington*, 418 F.2d 528, 163 USPQ 644 (CCPA 1969).

A timely filed terminal disclaimer in compliance with 37 CFR 1.321(c) or 1.321(d) may be used to overcome an actual or provisional rejection based on a nonstatutory double patenting ground provided the conflicting application or patent either is shown to be commonly owned with this application, or claims an invention made as a result of activities undertaken within the scope of a joint research agreement.

Effective January 1, 1994, a registered attorney or agent of record may sign a terminal disclaimer. A terminal disclaimer signed by the assignee must fully comply with 37 CFR 3.73(b).

Claims 18,20,21,24-26,30,31,33-35,37-47 and 53 are provisionally rejected on the ground of nonstatutory obviousness-type double patenting as being unpatentable over claims of copending Application No. 12/432536 (reissue of parent patent, US'464). Although the conflicting claims are not identical, they are not patentably distinct from each other because they embrace overlapping subject matter to a large degree as the instant case is a CIP of said reissue case. It is noted that the reissue case was filed **after** the mailing of the previous office action. In the examination of the Reissue case the examiner pointed out that the terminal disclaimer filed in the present case over US'464 does not extend to any Reissue case and thus a new one is needed herein.

This is a provisional obviousness-type double patenting rejection because the conflicting claims have not in fact been patented.

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
